Educators' Job Fair 2017

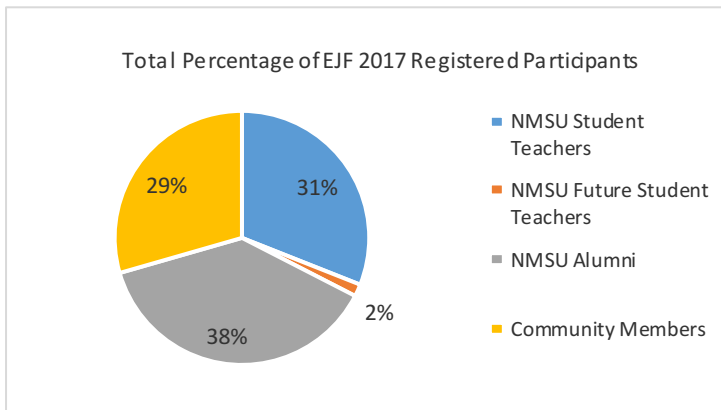

New Mexico State University Educators' Job Fair

The Educators' Job Fair 2017, co-sponsored by Career Services and the College of Education, was held in April. The Educators' Job Fair was open to new professionals in education, all experienced teachers and school administrators, principals, school counselors, nurses, social workers, as well as students seeking employment in a school setting. In addition, students in non-teaching majors were invited to discuss school districts' respective licensure programs, career options, and employment opportunities. The format of the fair was changed this year so that candidates were allowed to approach district representatives at their respective tables. The majority of the candidates are from New Mexico State University and the region. However, a growing number of candidates from across the United States are utilizing this event to secure employment in a school setting.

The total number of NMSU College of Education or other college student teachers in Spring 2017 was 82. This figure is based on the number of undergraduate student teachers who applied for graduation per a report (Cognos SP 2017 – Applied to Graduate CoED) generated from the NMSU COGNOS system on 3/09/2017. This report only indicates student teachers who applied for graduation; not those who actually graduated. The Educators' Job Fair participation report indicates that 40 NMSU student teachers participated in the event.

New Mexico State University Educators' Job Fair Number of Registered Participants

NMSU Student Teachers	40
NMSU Future Student Teachers	2
NMSU Alumni	49
Community Members (includes 14 current non-education majors)	38
Total Number of EJF Participants	129
